lyrics

weather warning

Verse 1

Thinking back
To a better time
I don't know
What I want from now

I just know
The clouds are
Not enough

But now's your chance

Chorus 1

Head in the clouds
Faces in the sky

Head in the clouds
Faces in the sky

Following the stars
Won't bring you back

Following the stars
Won't bring you back down

Don't dream on a cloudy night
Don't dream on a cloudy night

[Instrumental break]

Verse 2

Crowded by a group of stars
What's the point of playing
Keeping up

My cards are on the table
Now's your chance

*(My cards are on the table
Now's your chance)*

*(Crowded by a group of stars
What's the point of playing
Keeping up)*

*(My cards are on the table
Now's your chance)*

*(My cards are on the table
Now's your chance)*

Chorus 2

Head in the clouds
Faces in the sky

Head in the clouds
Faces in the sky

Following the stars
Won't bring you back

Following the stars
Won't bring you back down

Don't dream on a stormy night
Don't dream on a stormy night

statuesque

Verse 1

The sun had lovelier hues
When I decided to make my move

Dashing forwards I was stuck
Hope rolled down the hill with you

*(With you
With you
With you you you)*

Chorus

Statuesque
I tried my best

Like Sisyphus
There is no rest

But the grass was greener with you
But the grass was greener with you

*(With you
With you
With you you you)*

Verse 2

The night was warmer when I
Remembered I can think of you

Our lives stretched far ahead
The perpetual sunrise of us fools

*(Us fools
Us fools
Us fools fools fools)*

Chorus

Statuesque
I tried my best

Like Sisyphus
There is no rest

But the grass was greener with you
But the grass was greener with you

*(With you
With you
With you you you)*

[Instrumental break]

Chorus
Statuesque
I tried my best

Like Sisyphus
There is no rest

But the grass was greener with you
But the grass was greener with you

*(With you
With you
With you you you)*

*(With you
With you
With you you you)*

cold blow lane

Verse 1

Unequal desire
Love don't pass me by

You hesitate
It means so much

The fantasy
Fades away

I'll see your face again
I'll see your face again

Chorus

Love on Cold Blow Lane
I was doomed to fail

Love on Cold Blow Lane
I was doomed to fail

Verse 2

Clinging on
So desperately

To a promise
I made myself

To a light I saw
So far away

And every time you leave
I'm left with my own grief

As the light
Fades outside

Chorus

Love on Cold Blow Lane
I was doomed to fail

Love on Cold Blow Lane
I was doomed to fail

[Instrumental break]

Ext. chorus

Love on Cold Blow Lane
I was doomed to fail

Love on Cold Blow Lane
I was doomed to fail

Never stood a chance
Labour to no avail

Let me down so slowly
Make it feel right

Lay me down so gently
Have no pride

fables

Verse 1

Tell me
Are we sinking

Can you feel me
Drifting

Pull me up by the
Skin on my neck

But you're not the one
At least kiss your fist

Before you hit me
Sending me on my way

Verse 2

Tell me
What were you thinking

Can you feel me
Fleeting

Push me down by the
Sole of your boot

But you have got me
Under your thumb

At least kiss your fist
Sending us on our ways

Pre-chorus 1

I'm the shepherd
I'm the sea
Frail

Whatever my
Condition be
I sail

Chorus

I was dancing on the floor
I was dancing on the tables

Did you notice me or go
Did you care about my fables

Verse 3

Tell me
Is the sea still?

I'll set up the
Sails

I'll be in my way
Before you know

But I can see the
Daggers in your eyes

At least seal your fate
With a knife in my back

Pre-chorus 2
I'm the shepherd
Now hear my
Tale

With caution
I proceed
We bail

Ext. chorus
I was dancing on the floor
I was dancing on the tables

Did you notice me or go
Did you care about my fables

Those elaborate cat's cradles
